I designed these mittens to fit children with hands the same size as my son (he is two and a half), because it struck me one day that every child that goes cold or hungry is somebody’s baby – no different, except for details of circumstance, than my baby. Since the day I had that realization, I haven’t been able to shake it. I’ve started making mittens for these children - pairs and pairs of brightly colored mittens. What if it was my baby? How would I feel if it was my baby who had cold fingers and no way to warm them? For the time being, this is just one pattern, in only one size. It is my hope that I will be able to provide more, over time, but for now I hope that you and your baby – or whoever you are making them for - enjoy the mittens.
